

Your First Rockin' Groove!

You're going to need...

From Left to right we have:

HiHats:

Snare Drum:

Bass Drum:

The HiHats you're going to play with the stick in your right hand.

The Snare Drum you're going to play with the stick in your left hand under your right hand

The Bass Drum you're going to play with your right foot on the pedal.

The first thing you're going to do is play the bass drum over and over. Try to get it really even and consistent.

No problem, right? Sweet. Now let's add some snare drum. Remember, left hand. Every OTHER time we hit the bass drum, we'll hit the snare drum as well!

Now let's do the same thing, but on every single beat we're hitting, we'll add the hihats! (Remember, hats right hand, snare left)

Last but not least, let's add a hihat on it's own between each piece now!
